

LET'S TRY PRESCHOOL ANOTHER WAY

FALL 2019

A FRESH START FOR YOUR SENSORY SENSITIVE CHILD

For some children, life is too much, too fast, too loud, or too big and the transition to preschool can be challenging. Despite best efforts on all parts, some children are just not able to thrive in such a dynamic environment. A **Fresh Start** can help.

Sometimes what is required for a child to find success in a typical preschool setting is an opportunity to prepare the nervous system, ready the body and brain, learn expected behaviors, build-in supports and strategies unique to the child, and practice. We would like to help by providing a parallel experience to preschool and infusing opportunities for skills to emerge in a supported environment while collaborating with parents and the traditional preschool teachers to adapt the environment and develop methods to support the child.
